20 May 2024
Run 2541

With Golden Grove getting its first deluge in over a month, the hare was forced to remove some of the shiggier trail in Cobblers Creek and replace it with a nasty back-check, hopefully allowing the walkers to keep up with the runners until they got out of the creek area.

As the combined pack emerged from the conservation area, the check at John Road was quickly broken by Bearded Clam directly across the main road. The next check presented much more difficulty and after a couple of falsies the trail was eventually found along the edge of the dog park.

Trail continued along Bicentennial Drive with a Walker/Runner split sending the runners off deep into the Golden Grove housing area, while the walkers were treated to a short stint along Botany Drive.

A few tricky checks managed to slow the runners down for a while, but after a long downhill stint along the Golden Way, there was still plenty of beer left at the drink stop which was alongside the duck pond behind the Golden Way.

Despite the tortuous climb up Spring Hill Drive, the whole pack was back within the hour. After a short circle conducted by our returning RA, the pack enjoyed the nosh of roti jala with chicken curry and croissant pudding before retreating for home as the first real cold of winter started to set in.
